# LET'S GET CRAFTY

Post your or your kid's crafty creations on Twitter,  
tag @SnowflakeDB and use hashtag #PolarBearSnowBook

# ORIGAMI BOOKMARK CORNER

This cute little critter will help save your spot. Create a simple origami pocket, decorate it and slip it over the corner of your book page. Once you've mastered the origami pocket, make all your favorite animals!

1 Fold your origami square in half to make a triangle

2 Fold the right point up to the top of the triangle

3 Fold the left point up to the top of the triangle

4 Open up your triangle flat again

5 Fold the front layer down to meet the bottom edge of the triangle

6 Fold the right point up to the top of the triangle

7 Tuck the right flap into the pocket and fold the left point up to the top of the triangle

8 Tuck the left flap into the pocket

9 Turn your bookmark so the pocket is at the top and trim the bottom point to be rounded

10

Cut out and paste on ears and a nose, decorate and color!

# POLAR PAPER DOLL

Get Snowflake the polar bear ready to hit the slopes!

Color and cut out the accessories, taking care not to cut off the grey tabs. Put the accessories on the bear and fold the tabs over. Now Snowflake is ready to ski in style!

# POLAR BEAR POP-UP CARD

Make a fun pop-up polar bear card – keep it for yourself or write a message on the front and send it to a friend or family member!

You will need:

- Scissors
- Glue
- A piece of colored construction paper or cardstock

- 1 Cut out the polar bear on the following page on the outer dashed line

- 2 Fold the polar bear in half vertically

- 3 Cut a straight slit across the mouth using the line as a guide

- 4 Fold the mouth flaps along the dotted lines. Then turn the bear over and fold the two flaps back the other way along the same fold.

- 5 Open up and reverse the body fold. The mouth should pop open, making a diamond shape.

- 6 Glue onto a piece of folded construction paper or cardstock. Open and close the mouth by folding and opening the page, back and forth!

# PAPER PLATE POLAR BEAR

Turn a plain paper plate into a fuzzy polar bear! Plan ahead and decide if you want to make a mask or wall hanging. If you'll make a mask, cut the eye and mouth holes before you apply the glue.

- 1 Cut up white tissue paper into 2 inch squares
- 2 Turn your paper plate upside down and cover the bottom with glue
- 3 Pinch the tissue paper squares at the center and press into the glue on the back of paper plate
- 4 Repeat until the back of the paper plate is covered

5

Cut out eye and mouth holes and use construction paper to make a nose and ears. Attach a popsicle stick for a fun fuzzy polar bear mask!

Or use googly eyes and construction paper to make a funny face. Add a pipe cleaner or string to the top and hang on your wall!

# UPCYCLED BIRD HOUSE

**1 Start with your used milk or juice carton**

Make sure the inside is rinsed and dry.

**2 Use a pen to outline the shape you want to cut out**

This will be the opening of the bird house. Use a craft knife or scissors to cut through the carton following the outline you made. You might need to ask a grown-up for help cutting.

**3 You're ready to paint!**

Time to get creative! Paint and decorate the outside of the milk carton any way you'd like.

Wait for your house to dry completely before going to the next step.

**4 Now it's time to make holes for the stick**

Use a craft knife to cut an X mark on both sides of the carton (ask for help—it can be tricky).

Poke your stick through the X mark and straight across through the X on the other side.

**5 String your bird feeder by making a hole on the top of the carton**

Use the craft knife to make a hole at the middle of the top of the carton. Poke your string through the hole and tie a knot to create a loop for hanging.

Turn an old milk carton into a cozy hangout for some feathered friends!

You will need:

- Milk or juice carton
- Ballpoint pen
- Craft knife or scissors
- String
- Chopstick or straight twig
- Paint or other decorations
- Paintbrush or glue

**6**

Your bird house is ready to be filled with bird seed.

After you've put seeds in your bird house, find a cozy place to hang your feeder and then wait for some hungry birds!

# PAINTED ROCKS

Spread good vibes in your neighborhood! Write fun, silly and kind messages on smooth rocks. Use markers, crayons, glitter, paint or chalk to decorate your rocks and then leave them around to brighten someone's day!
